

Анастасия Тамашенко — Python-developer

⬆ Junior
📍 Georgia, Tbilisi
💰 600 \$ (дол/мес)
✉ Контакт: geeklink.io/cv-32903

Навыки

Arduino, C#, Django, Git, Pi, Python, Raspberry, SQL.

Опыт работы

- **pet project**

September 2021 - until now - python-developer

come up an idea of project and realize it

Образование

- **Radioinformatics**

BSUIR
2018-2022

left before graduating

Обо мне

I have some skills in Python 2.7/ 3.x (including Django and a little bit of experience in Flask).

I have developed different simple projects like webpage for school library.
I have experience of writing extensions for JavaScript on Python.

Also I have some skills in C++ (university tasks with different mathematics algorithms).
Solving complex problems and realising different algorithms is my hobby)

Every day im trying to know something new and make my experience in Python better.

Always open for new interesting conversations with new friends.
In general i'm a positive person that like watching memes)
