Навыки

Airflow, Bash, Data Lens, Docker, ETL, Git, Jira, LabView, Linux, Looker Studio, Matplotlib, Numpy, Orange Data Mining, Pandas, Python, Redash, SQL.

Опыт работы

- **LoyaltyPlant - is an all-in-one digital platform for global quick service restaurants**

4 months | June 2024 - Sep 2024 - B2B data reports, data verification

B2B data reports, data verification

- **Deeplay.io - AI-driven animators for card games**

1 year | July 2023 - June 2024 - ETL Data Engineer

Apache Airflow (ETL): raw python and pandas data processing: APIs, MySQL, Google Sheets, ClickHouse
Maintain documentation, mentorships

- **Университет ИТМО**

2017-2022 - Инженер исследователь

Collection, refinement, and analysis of experimental data, hypothesis verification
Assembling optical setups and direct involvement in execution of optical experiments
Performing analysis and automation of experimental data processing using Python (Pandas) and data visualization employing Matplotlib and Seaborn for presentations in publications and conferences
Enhancing equipment capabilities through the use of microcontrollers (C++, LabView)
Conducting market and technological research
Secured 5 research grants (application, managing, teamwork, reporting)

- **NT-SPb**

2018-2022 - Engineer

Engaging in R&D and customizing equipment to meet client specifications
Performing on-site and remote equipment installations, support
Conducting software and hardware testing

Образование

- **Физика конденсированного состояния**

Университет ИТМО
2017-2023

Кандидат физико-математических наук

Обо мне

С научным подходом к данным. Широкий кругозор.
