

# Viktor Iurkin — Java Backend Developer

⬆ Junior  
📍 Россия, Казахстан, Армения, Сербия  
💰 100 000 - 120 000 ₽ (руб/мес)  
✉ Контакт: [geeklink.io/cv-36637](https://geeklink.io/cv-36637)

## Навыки

Apache Maven, Apache Tomcat, Docker, Flyway, Git, Hibernate ORM, IntelliJ IDEA, Java, JUnit, PostgreSQL, REST, Spring Core, Spring Framework, Spring MVC, Spring Scheduler, Spring Security.

## Опыт работы

- **АО «Concern «Oceanpribor»**

**October 2016/December 2022г.** - engineer

Development of product algorithms, debugging of their implementation in C ++, modeling of algorithms in Matlab, implementation of reading recorded data, coordination of protocols for the interaction of component parts via ethernet interfaces, RS-485.

## Образование

- **Radiophysics**

Saint Petersburg state university  
2010/2014

Bachelor of Physics

- **Wave processes and methods of their investigation**

Saint Petersburg state university  
2014/2016

Master of Physics

## Обо мне

I have been developing algorithms, debugging and testing software for the operation of ship speed measurement systems for five years . I want to become part of the team responsible for the continuous development and maintenance of the infrastructure for MVC or Rest API applications, as a Backend Java Developer.
