## Образование

- **Прикладная математика и информатика**

Высшая школа экономики  
09/2020 - 06/2024

## Обо мне

I am an experienced Java Developer with 2.5 years of experience in developing enterprise-level applications using Java and related technologies. I am a strong team player and believe that software architecture is the foundation of any successful software project. I have experience working in Agile development environments and have a proven track record of delivering high-quality software solutions that meet business requirements and exceed customer expectations.
