  2011 - 2016

Обо мне

Enthusiastic, responsible iOS Software Engineer with 5+ years of experience. Having strong knowledge and deep experience of Swift, Objective-C languages and iOS SDK. Easily collaborating with cross-functional teams(local and international) to follow the design, implement new features and provide new functionalities. Making creative and modern solutions for getting better results. Continuously discovering, evaluating, and implementing new technologies to maximize development efficiency.
Experience with Code Reviewing, Keeping SOLID principles in coding, Deadlines Oriented Analyzing and applying Apple's design principles by strictly following interface guidelines.
