Навыки

Ansible, AWS, Docker, Gitlab CI, Kubernetes, Linux, MySQL, PostgreSQL, terraform.

Опыт работы

- **Center of Transportation and Services Implementation, Ltd.**

2000-2021 - System Engineer

- **Orion Innovation**

2021-2023 - DevOps Engineer

Образование

- **Physics**

Tyumen State University, Tyumen
1996-2001

- **Physics**

Institute of Economics and Industrial Engineering of Siberian Branch of the Russian Academy of Sciences, Novosibirsk
2001-2005

Обо мне

- Designed, implemented, and managed cloud infrastructure using AWS, including EC2 instances, S3 buckets, and RDS databases.
- Implemented CI/CD pipelines using GitLab CI/CD, enabling rapid and reliable application deployments.
- Worked in close contact with development teams to improve the release process, reduce manual interventions.
- Implemented infrastructure as code (IaC) using Terraform, enabling infrastructure provisioning and version control.
- Conducted MySQL database migration from on-premises servers to AWS RDS instances, ensuring data integrity and minimizing downtime.
