Обо мне

Experienced PHP/Golang developer with over 10 years of successful work in creating reliable and scalable applications. Possess deep knowledge in development using TDD, writing tests and technical specifications, and have experience in mentoring junior developers. Seeking an opportunity to apply my skills and knowledge in an innovative project, aiming for continuous growth and development through active collaboration with a team of professionals and effective use of cutting-edge technologies to achieve company goals and create powerful products that meet the needs of the modern market
