Навыки

Apache Cassandra, Docker, Express, Git, JavaScript, MariaDB, MongoDB, MySQL, NestJS, Nginx, nodejs, PostgreSQL, PrismaORM, React, Redis, Redux, Rxjs, TCP/IP, TypeScript.

Опыт работы

• Tapston Development

March 2022 / Present - Full Stack Developer

Worked on projects in various domains, including restaurant management, healthcare, delivery, and e-commerce. Integrated with multiple APIs, including delivery aggregators, payment systems, social media platforms, and banking services. Led a project with a high-traffic system (300,000+ users). Led the development of a large-scale project from scratch to production. Deployed applications on servers (Nginx configuration, SSL certificate installation, Docker usage and e.t.c.). Fully mastered: TypeScript programming language; NestJS framework; MariaDB, PostgreSQL, and MongoDB DBMS's; Prisma ORM; Working with application and transport layer protocols of the TCP/IP model; Git version control system; Working with servers.

• iTechArt Group

Feb. 2022 / March 2022 - Trainee Angular Developer

Successfully mastered the theoretical foundation of Angular technology. Developed a personal project on the topic of "Cookbook".

• Freelance

Apr. 2021 / Feb. 2022 - Freelance Web Developer

Developed turnkey websites in various directions: Business card websites, NFT game, Anti-plagiarism tool; Online clothing store.

Образование

• Artificial Intelligence

Belarusian State University of Informatics and Radioelectronics
2019/2023

Обо мне

I'll be more comfortable if you call me Antony, and I am a Full Stack JS Developer with 2 years of experience. My main stack

is: NodeJS, TypeScript, NestJS, PrismaORM, React, Redux. First of all, I am a software engineer, my task is to create new innovations and be able to work with existing technologies, so I am not tied to a specific programming language. However, at the moment I have chosen the path (as a stage) of fullstack JS/TS developpe for myself. I really enjoy learning new technologies, learning how they work and being able to put them into practice.
