## Опыт работы

### • Itransition Group

**Feb 2021 - Aug 2023** - Middle Software Engineer

- Working in a large distributed agile team as a middle full-stack developer to build and deploy SaaS solution
- Implementing various new features mainly using .Net and AWS services
- Writing E2E automated tests using Specflow, Selenium and Cypress
- Handling CI/CD processes using Spinnaker and GitHub Actions
- Managing infrastructure with Terraform

### • VironIT

**Jul 2020 - Dec 2020** - Junior Software Engineer

I was developing a project for the sale of advertising slots on television in the United States. I was also supporting and one project in the company. I also have estimated some potential new projects of the company.

### • Qulix Systems

**Mar 2020 - Apr 2020** - Internship

I was passing the internship at the company. I studied many new technologies and developed my project in conditions close to real production experience.

## Образование

### • Specialist in Web programming and Computer design

Belarusian State University  
2011 - 2017

## Обо мне

Software developer with 3+ years of production experience with mainly .NET technologies and a frontend background. Experienced in the development of layered websites and working with Microservice architecture. Organized, responsible, and adaptable to changes in work environments.
