Образование

- **Программное обеспечение информационных технологий**

Полоцкий государственный университет
2018-2022

Обо мне

I'm an experienced Java/Kotlin backend developer with a strong knowledge on how to write clean, readable and effective code. As for my personal qualities, I'm a reliable and responsible person who is always ready to help and bring something useful to this world. Moreover I always search for an opportunity to take on new responsibilities and adopt new skills.
