Навыки

Django, Docker, Docker-compose, Elasticsearch, FastAPI, Git, Linux, Nginx, PostgreSQL, Python, Redis, SQLite.

Опыт работы

- **Solopharm Pharmaceutical**

12.2013- 04.2023 - Head of R&D validation department

Образование

- **Chemist**

Saint-Petersburg State University
2007 - 2012

Обо мне

I'm an enthusiastic and highly motivated junior Python developer, eager to dive into the world of web development. I've got a solid grasp of Python Core, Django, Docker, Linux, Postgresql, and FastAPI under my belt. I'm on the lookout for an opportunity to join a dynamic development team, roll up my sleeves, and get some real hands-on experience in crafting sturdy web applications and APIs. Let's build something amazing together!
