Навыки

Access), API (Postman, Appium (Android, Cucumber, Docker, Git (GitHub, GitLab), iOS), Java, Jira, Jmeter, REST Assured) Selenium, Selenide), SQL(MySQL, test documentation, TestNG.

Опыт работы

- **Land Resources Service**

  02.2020-09.2023 - QA engineer

  My role in the cadastre establishment was an important component of the automation team.
  Ihave been actively involved in creating automated tests using Selenium WebDriver, Postman and JMeter. Our team has successfully implemented the Agile methodology, which has led to more
  effective collaboration within the team.
  My job also included responsibility for maintaining testing documentation. We collaborated to
  develop and implement innovative automated tests, which helped improve product quality and speed up the development process.

Образование

- **Digital control**

  The Academy under the President of the KR
  2021-2023

Обо мне

I am purposeful and highly motivated person who can adjust quickly to new surroundings. Detail-oriented and constantly looking for ways to improve. Istrive to make products of high quality and satisfy the needs of users.
