  Technology Stack: 1C, JS, Jankins(CI/CD), SQL, Firebird(DBMS)

Образование

- **Applied Mathematics and Computer Science**

  Russian New University, Moscow
  2012-2017

  I graduated from the University with bachelors degree in Applied Mathematics and Computer Science.
  Software Developer / Analyst
  Create software on MS Visual Studio (C #, Windows Forms) to calculate technical parameters (for training purposes) on Wolfram Mathematica Core
  Creating software on MS Visual Studio (C++, Windows Forms) for data accounting (for educational purposes)

Обо мне

I am a highly motivated developer with 6 years of development experience and a bachelor's degree in Computer Science. I managed to try myself in different areas of IT:

- Development desktop applications (C++, C#, Delphi)
- Blog development (Python, Flask, SQLAlchemy)
- Development a web application (1C)
- Testing (Jankins/Silenium)

Now I am deeply immersed in database development, analytics, and report generation.
English: B2
I am interested in finance and trading.
