Навыки

Bash, Confluence, httpd, Jira, Linux, Multitasking, MySQL, Negotiating, Networking, Nginx, Postgresq, Proxmox, Python, Quick adaptation to new environment.

Опыт работы

- **Hopper Support LLC**

  April 2020 - January 2023 - Senior systems administrator

  *Full remote work
  Full service for large-scale projects of a nationwide scale: 24/7 SLA support. Identification of suboptimal methods. Updating services and servers (centos, rhel) in the production segment.
  Designing architecture, installation, backup, monitoring, tuning, and maintenance of Atlassian and Bitrix products.
  Building architecture for client web applications, maintaining java applications, and le(a)mp stack with node and redis.
  Stack: nginx, httpd, mysql, postgresql, atlassian (jira, confluence), zabbix, gitlab, docker, backupPC, letsencrypt
  Migrated an organization of 50+GB from cloud jira to a server, then to a data center.
  Became familiar with gitlab ci/cd – set up an automatic deployment of testing stands (qa) on the traefik + gitlab + ansible stack.

- **Tensor company LLC**

  November 2013 - April 2020 - Linux Systems Administrator

  24/7 high SLA support. The identification of suboptimal methods. Updating services and servers (centos) in the production segment.
  Working in my area of responsibility: configuration, monitoring, documentation, maintenance, expanding capabilities.
  Working with big-data (databases up to 10TB).
  Monitoring through Zabbix, including custom scripts in Python and Bash.
  I configured Clickhouse and Zookeeper and implemented monitoring and backup of large amounts of data that eliminated the loss of significant data and increased fault tolerance.
  I increased the efficiency of the on-duty script for Zabbix (in JavaScript).
  I wrote an internal resource authentication library for monitoring scripts (in Python) which increased the simplicity and convenience of monitoring scripts.
  I became familiar with RabbitMQ, Elasticsearch, Clickhouse, and Redis.

- **Geekbrains, Netology**

  May 2019 - November 2022 - Linux teacher

  *Second work
  Teaching Linux courses mainly for testers and programmers for a few different educational companies.

- **Atlant LLC**

  May 2019 - January 2023 - Systems architect

  Did all IT for a tiny local project from scratch. Monitoring their functionality and software updates
  Quickly troubleshoot issues, Workflow organisation, Automation of tasks
  Installation and implementation of new features

- **Wave-service LLC**

  March 2013 - November 2013 - Linux Systems Administrator

  Administering *nix servers (debian, freebsd, centos):
  Monitoring their functionality and software updates
  Quick issues troubleshooting
  Tasks automation
  Installation and implementation of new features
  Working with active network equipment D-Link
  Website and forum administration and moderation
  Professional in system administration since 2013 by ideco
  Learned firewalls
  Increased understanding of networks and unix-like systems, apache/nginx, sh
  Gained good experience in communication] with monitoring systems (specifically zabbix and request tracker), billing system ACP LanBilling, and active equipment D-Link.Administering *nix servers (debian, freebsd, centos):

Образование

- **Software engineer, Department of Information Technology, Software Specialization**

  Yaroslavl Urban Planning College
  2009 - 2013

  # Certifications
  LinkedIn Skill Assessment badge top 5% 2023
  Systems administration pro 2017 [IDECO]
  Systems administration pro 2013 [IDECO]
  Systems administration pro 2012 [IDECO]
  Basics of network technology 2012 [D-Link]

Обо мне

I am an experienced systems administrator with 11 years of work experience. I specialize in Linux systems and proficient in using technologies such as CentOS, MySQL, PostgreSQL, Zabbix, Proxmox, and Atlassian. I have a strong background in complex systems maintainance and troubleshooting, and I am dedicated to ensure the smooth operation of the systems under my care. I have a deep understanding of Linux systems and experience of working with different technologies. On top of that, I am able to work well under pressure and known for delivering effective results within tight deadlines.
