## Навыки

Alembic, Celery, Django, Docker, DRF, FastAPI, Linux, Nginx, PostgreSQL, Python, Redis, SQLAlchemy.

## Опыт работы

### • Traecto, LLC

01.08.2022 - Django Developer

- Developed a Learning Management System (LMS) architecture from scratch that is capable of proactively identifying business risks and enhancing the efficiency of business processes through employee training, using detailed metrics from employee profiles.
- Made API integration with BigBlueButton video conferencing platform helps us save about 13,3% of investments
- Designed understandable and clear API documentation with drf-spectacular reducing the onboarding time for new employees
- Reduced ticket closure time and support load by implementing the Sentry error and bug tracking tool.
- Created educational content sessions system that can store user activity data for 10000+ employees in LMS
- Implemented SCORM (Content Sharing Object Reference Model) standart for tracking user progress

## Образование

### • Programmer

Perm Aviation College  
01.09.2019/15.07.2023

## Обо мне

Python developer with 2 years of programming experience, specializing in the creation of educational platforms. Using technologies such as Django, Postgres, Celery, Redis and Docker, I have developed a unique educational trajectory constructor
