Образование

- **Technician-programmer**

  Educational Institution "Grodno State College of Engineering, Technology and Design"
  2019/2023

Обо мне

In my third year of college, I had an internship in website development, and I enjoyed it a lot. In my free time, I used to watch the YouTube channel Freelancer LifeStyle. In the summer of 2022, I realized that there was no point in delaying, so I decided to enroll in courses at TeachMeSkills. After completing the courses, I continued to develop my skills, undergo internships, and gain experience. Currently, I am focused on self-improvement and enhancing both personal and work-related projects.
