

Kseniia Artemova — Python-разработчик

📍 Junior
📍 Испания, Валенсия
💰 60 000 ₽ (руб/мес)
📅 Временная работа | Полная занятость | Стажировка
| Частичная занятость
☁️ Удаленная работа
✉️ Контакт: geeklink.io/cv-96921

Навыки

API, Bootstrap, Celery, crontab, Django, Docker, Docker compose, DRF, Git, JSON, OOP, Poetry, PostgreSQL, Python, Redis, SQL, unittests.

Опыт работы

- **SkyPro**

2023/2024 - tutor

- **BioLine**

2020/2022 - Sales manager (laboratory and analytical equipment)

- **Helix**

2019/2020 - Laboratory engineer (ELISA)

Образование

- **Python-developer**

SkyPro
2023/2024

Completed developer courses and acted as a tutor for students

- **Master of Science - MS (Neuroscience)**

Immanuel Kant Baltic Federal University
2017/2019

- **Bachelor of Science - BS (Biology)**

Immanuel Kant Baltic Federal University
2013/2017

Обо мне

I began learning Python in June 2022. I was attracted by its practicality, simplicity, and demand in the market. Choosing Python seemed obvious due to its logic and structured nature. In programming, I am drawn to solving specific tasks and the ability to see immediate results of my work. Working on projects often feels like solving a puzzle, which makes the process engaging. Currently, I am also intensively studying English and am ready to learn new programs and libraries that may be required in the workplace. Among my strengths are the ability to work in a team, attentiveness, and a capacity to learn

quickly.
