## Навыки

GraphQL, MongoDB, NestJS, No-SQL, Node.js, PostgreSQL, Prisma, RabbitMQ, Redis, SQL, TypeORM, TypeScript.

## Опыт работы

### • The Rolling Scopes School

Jan 2024 - Apr 2024 - Trainee Backend Developer

I have participated in Node.js training program for skill improvements. During the program I have successfully completed program tasks and got new relevant experience as in technical side as in communication with community members. Improved self-skills in time management and task prioritization, important things must be done in time.

### • EPAM Systems

Feb 2021 - Mar 2022 - Software Engineer

Worked as Full-Stack Developer (Angular + Node.js) for 1 year.

Front-End:

- Created new interface features for users using Angular.
- Implemented completed solution to manipulate with huge amount of data to display charts and optimized it to significantly improve project performance.
- Created responsive, cross-browsing, layouts according to Figma templates.
- Collaborated with Designers team prototyping user interfaces.

Back-End:

- Created endpoints for CRUD operations.
- Successfully implemented completed service to perform operations on data from the different sources only in time when new data becomes available, used Cron Jobs for this.
- Successfully implemented completed service to perform operations on existing data to provide data consistency.
- Implemented completed services for data calculations using different databases.
- Created service to perform operations with file system.
- Worked with SQL and No-SQL databases.
- Provided database migrations.
- Wrote unit-tests.
- Actualized Swagger information.

General:

- Fixed bugs and errors.
- Participated in Agile activities.
- Provided code review of front-end/back-end teams.
- Wrote project documentation.

- **InnoVerge Technologies**

Dec 2019 - Jan 2021 - Full-stack Developer

While worked as Full-Stack Developer successfully created completed customers web-sites for business according to Photoshop/Figma templates, focused on delivering cross-browser compatibility, responsive adaptive design, user friendly interfaces. Improved sites performance used modern optimization techniques.

## **Образование**

- **Software Engineer**

Mogilev University  
Sep 2018 - Apr 2022

## **Обо мне**

Software Engineer with 2 years of experience. Oriented on backend development and ready to face with challenging tasks. I am understanding that time today is all.
