## Опыт работы

### • TM-Detal

**04.2021 / 12.2022** - CNC Programmer / Technical Specialist

- Staff training
- Conducting interviews
- Programming of CNC machines • Adjustment, maintenance
- Adjustment, maintenance

### • Freelance

**05.2023 / 11.2023** - Web Developer

During my learning journey, I applied acquired knowledge by completing several projects, including a landing page for car rental and an internet catalog for automotive chemicals. My role primarily involved developing functionality and structure for these projects, ensuring their proper operation and user-friendliness.

### • NEKLO

**11.2023 / 01.2024** - Trainee Front-end developer

During the internship, I actively collaborated with my mentor, completing assigned tasks and learning the Magento platform in depth. Wrote a new approach to implementing a third-party frontend based on this platform using Next.js and GraphQL technologies. My project was presented to the company as an innovative solution to improve the user experience and efficiency of the Magento platform.

### • Itransition

**01.2024 / 03.2024** - Training / Full-Stack Developer

While training as a Full-Stack Developer using the MERN stack, I performed a variety of tasks, ranging from manipulating the console in Node.js to creating an authorization application using JWT and a service for generating fake data. My experience included developing and testing functionality at all levels of the stack, as well as interacting with a PostgreSQL database and creating RESTful APIs using Express.js.

## Образование

- **CNC Programmer / Technical Specialist**

KSTMIA UO RIPO  
09.2019 / 02.2022

- **Front End Developer**

Rolling Scopes School  
02.2022 / 08.2023

## Обо мне

Motivated developer keen on learning, willing to exert all efforts to achieve company objectives. Prepared to actively engage in learning and adapt to new requirements, striving for continuous growth and enhancement of professional skills.
