Aug 2022 - Nov 2022 - Internship

## Образование

- **Сердечно-сосудистая хирургия**

РУДН  
2019-2021

## Обо мне

Throughout my 2+ years of experience in game development, I worked on complex, long-term mobile projects as part of a small team. I handled diverse aspects of game development, such as UI and AI, sound and music, animations, VFX, performance and memory optimization and code refactoring. I also developed user-friendly tools for game designers and participated actively in game design decisions.

I am currently seeking opportunities to apply my comprehensive skills and contribute to a team dedicated to crafting immersive gaming experiences.
