Mikael Bagdasaryan — .Net Разработчик
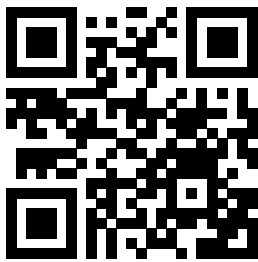

⚠ Middle
📍 Армения
💴 140 000 - 200 000 ₽ (руб/мес)
📅 Полная занятость
☁ Удаленная работа
✉ Контакт: geeklink.io/cv-114051

Навыки

.NET Core, C#, Docker, EF Core, Git, MSSQL, PostgresSQL, unit tests.

Опыт работы

- **WaveAccess**

  May 2022 — Oct 2022 - Intern Back-End .Net Developer

  WaveAccess was my first experience in the professional field. Despite already having a foundation in C# and .NET, during the internship, I learned a multitude of new technologies, structuring large projects, teamwork, testing concepts, containerization, utilizing third-party APIs, and so on. Completed a .NET course by building a personal project: a task management app.
  • Improved app performance by optimizing SQL queries.
  • Participated in a team project, contributing to the development of a small e-commerce
  site using MVC.
  • Improved soft skills

- **Innline**

  Nov 2022 — Present - Junior Back-End .Net Developer

  WaveAccess was my first experience in the professional field. Despite already having a foundation in C# and .NET, during the internship, I learned a multitude of new technologies, structuring large projects, teamwork, testing concepts, containerization, utilizing third-party APIs, and so on. Completed a .NET course by building a personal project: a task management
  app.
  • Improved app performance by optimizing SQL queries.
  • Participated in a team project, contributing to the development of a small e-commerce site using MVC.
  • Improved soft skills

Образование

- **Applied Mathematics and Computer Science**

  Российско-Армянский Университет
  Sep 2019 — Jul 2023

  I started at this company as a junior developer. At first, I used my knowledge gained during my internship at WaveAccess, and then I gradually grew as a developer, helping the company to achieve its goals within the given deadlines and offering solutions to different kinds of
  problems.
  • Developed a custom CRM system using .NET Core.
  • Reduced load times for a web application through code optimization and efficient data caching.

• Implemented RESTful APIs for a logistics platform, enabling seamless third-party integration.
• Conducted code reviews for peers, improving code quality and team knowledge sharing

Обо мне

Dedicated .NET developer with, 2+ years of experience. Proficient in C#, .NET Core, and MVC. Able to turn complex problems into simple solutions. Aimed at teamwork, problem solving, and learning.
