Опыт работы

- **buzz.ai**

January 2021 - December 2022 (2 years) - Frontend Web Developer

User interface development and support. Performance optimization.

- **Itransition Group**

January 2023 - August 2023 (8 months) - Frontend Developer

- **2UIT**

August 2023 - November 2024 (1 year 3 months) - Frontend Developer

As a frontend developer, I work on building a website from scratch using Nuxt3. My responsibilities include conducting code reviews, developing and implementing new features, and setting up and improving the website's SEO from the ground up. I focus on creating an efficient and optimized web product to ensure high performance and visibility in search engines.

Образование

- **Мастер электронных оборудования и устройств**

Костромской политехнический техникум
2010-2015

Обо мне

I am an enthusiastic and self-motivated frontend developer with a strong passion for learning and staying up-to-date with the latest web development trends. Currently based in Turkey, I have actively pursued web development as my area of expertise. Having spent time in a lot of different countries as well, I appreciate diverse cultures and ideas, which has shaped my adaptable and inquisitive nature. I am eager to contribute to large-scale projects, utilizing my skills while exploring my potential.

I am a cheerful individual who enjoys humor and laughter. Adapting to new teams and establishing rapport with people comes naturally to me. Conflict resolution skills and self-irony are strengths I possess. Outside of development, I am

passionate about snowboarding, rock climbing, and snakes. I plan to relocate to Indonesia in the near future, where I intend to stay for a couple of years.

Thank you for your attention! I look forward to the opportunity to contribute to new projects and continue my professional growth.
