## Обо мне

Experienced Unity Developer with a strong background in C#, game architecture, and performance optimization. Proficient in design patterns (SOLID, ECS, DI), Addressables, multithreading, and asynchronous programming. Skilled in developing game mechanics, UI, animations, and custom Editor tools. Experienced in integrating SDKs, analytics, monetization systems, and client-server interactions (REST API, WebSockets). Passionate about creating scalable and maintainable systems, improving workflows, and delivering high-quality games. Always eager to learn new technologies and tackle complex challenges.
