Обо мне

Have Unity experience for four years and have almost 2.5 years of commercial experience. During this time I have worked on projects of varying complexity. Ranging from mobile games to online shooter game. I have no problems about organizing project | time lines and searching for solutions any kind of difficulty.

 Work Experience:

Development of game mechanics
Integration of analytics, ad services, and other SDKs
Working with assets and frameworks
Optimization
Experience in developing mobile games, VR, and PC projects

Project management using GitHub / GitLab

 Team Collaboration Experience with:

Game Designer
2D Artist
3D Artist
UI/UX Designer
Animator
