AWS, Docker, Golang, Kafka, Kubernetes, MariaDB, MySQL, PHP, PostgreSQL, Redis.

Опыт работы

- **Dynatech**

2019.05/2025.05 - Software engineer

Образование

- **Computer Systems**

RTU Riga, Latvia
2017/2020

Обо мне

I'm experienced backend engineer that works across multiple programming languages and has a focus on Golang, microservices, system architecture, and event-driven architecture. I'm looking for technical challenges, meaningful projects, and great people to with. Ready to work remotely on B2B contract basis.
